### PCMCIA Storage Cases & Mobile RJ-11 Telephone Cable Interface

#### Overview

The pocket-sized **SingleStore** protects Type I and II PCMCIA Cards in durable vinyl for easy storage and portability. Molded from durable vinyl, the SingleStore offers an economical solution to your mobile data storage requirements. It features a molded inner lip that holds the memory card securely in place.

**SecureStore** provides the ultimate in shock protection for rotating memory cards. It protects Type III Cards in a molded durable polypropylene case with thermoplastic rubber tray for superior shock absorption. It was designed to meet stringent industry drop standards. Why risk losing valuable data because your card is not properly stored?

Perimeter connection of the tray to the base forms an air and water-tight gasket. A state-of-the-art snap lock assures positive closure. SecureStore is available in three colors: black, red, or blue.

**MaxStore** provides a portable solution to multiple PCMCIA card storage. Whether in the desktop or in transit, MaxStore protects and secures all types of PCMCIA cards.

MaxStore protects up to six Type I or Type II Cards, or three Type III Cards, or any

combination thereof. The "C" shaped holders are designed to individually lock the PCMCIA cards into place. A state-of-the-art external slide lock releases the holders for easy access to the cards or secures them for travel.

**Mobile RJ-11 Telephone Cable Interface** is an internal, 2.4m RJ-11 cable that easily extends and retracts for convenient storage and use. It offers an efficient alternative to loose and tangled cables. Mobile RJ-11 is designed to share the same footprint as a standard PCMCIA card to provide ease of use and efficiency. This means you can carry it along in your MaxStore PCMCIA storage case.

The reel component on Mobile RJ-11 features a molded finger recess for smooth, easy winding and is molded from durable acetal providing frictionless action. The Mobile RJ-11 connector retracts into its original position after use.

All PCMCIA Storage Cases and the Mobile RJ-11 Telephone Cable Interface are Guaranteed for Life!
