### ANTISTATIC SERVICE KIT AND WRIST STRAP

*Everything you need to prevent static blowouts.*

#### Key Features

- ▶ **Includes feather weight coil-lite ground cords.**
- ▶ **Protects sensitive circuitry from ESD.**
- ▶ **Two-layer construction.**

The AntiStatic Service Kit is an effective personnel grounding system. It is ideal for protecting static-sensitive components and circuit boards from the damaging effects of electrostatic discharge (ESD).

An accepted rate of static decay enables the FSK-SPC dissipative work surface to reduce the danger of ESD damage during repair functions in the field.

The Wrist Strap is a reliable way to ground yourself. The five silver-plated conductive monofilaments on top of the non-conductive inner surface, provide improved skin contact.

#### Why Buy From Black Box? Exceptional Value. Exceptional Tech Support.

#### What's in the AntiStatic Service Kit:

- Red 61 x 61 cm.(24"x 24") mat with two 20.3 x 30.5 cm. (8" x 12".) pockets
- 3.6-m (12-ft.) ground cord
- 3.6-m (12-ft.) coiled cord with banana/alligator plug
- Bull clip with snap connector
- Adjustable blue cloth wristband with post snap
- ESD shielding bag

Recognise any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.

According to a recent survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of

their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
