## NETWORK SERVICES

### DESKTOP AND TOWER SERVRACKS

*Consolidate—and clean up the clutter in your computer room.*

These Desktop and Tower ServRacks make saving space easy. Now, instead of stacking your hardware in the nearest available space, you can stow everything in its own compartment.

Connect all your servers and CPUs to a single monitor, keyboard, and mouse. Or switch from a 2-port to a 4-port

compartment, without losing shelf space. These steel shelves can hold 100 pounds. Even the monitor shelf on top can hold 75 pounds.

The six-outlet power strips solve the problem of finding enough outlets. And they're surge-protected.

ServRacks are in stock in beige and black, but if you want a different colour you can have it custom-made.

#### Your ServRack includes . . .

- Fully adjustable, steel, double-sided rack shelves that mount back to back (Desktop model, four; Tower model, two).
- A steel monitor shelf with compartment holds all ServSwitch models except the Matrix ServSwitch.
- A 23-inch sliding keyboard shelf with mouse extension, or an articulating keyboard shelf for easy viewing.
- A surge-protected power strip with six outlets and a 1.8-m (6-foot) power cord.
- (2) Heavy-duty extruded-aluminum drilled and tapped uprights.
- (2) Heavy-duty extruded-aluminum free-standing bases.
- (4) Pairs of tie-down straps to secure your CPUs (Desktop model only).
- (2) Pairs of adjusting brackets and tie-down straps to secure your CPUs.

# Specifications

Size: 155H x 58.4W cm (61"H x 23"W)    Weight: 45.4 kg (100 lb.)

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support.

### Recognise any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10

to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
