## NETWORK SERVICES

Black Box Corporation • 1000 Park Drive • Lawrence, PA 15055-1018 • Tech Support: 724-746-5500 • [www.blackbox.com](http://www.blackbox.com) • e-mail: [info@blackbox.com](mailto:info@blackbox.com)

## 3Com SuperStack 3 Switch XM 3300

**Choose this switch for affordable 10-/100-Mbps Ethernet switching.**

### Key Features

- ▶ **Provides inexpensive 10/100-Mbps Ethernet switching.**
- ▶ **Stack up to four 24-port switches together to create one 96-port virtual switch.**
- ▶ **Autosensing ports operate in full- or half-duplex mode.**
- ▶ **Conforms to all applicable Ethernet/Fast Ethernet standards.**
- ▶ **Manage your network via the included 3Com Transcend Network Supervisor.**

The 3Com<sup>®</sup> SuperStack<sup>®</sup> 3 Switch XM 3300 provides Ethernet (10-Mbps)/Fast Ethernet (100-Mbps) switching for your network.

The switch has 24 autosensing 10/100 ports that adjust automatically to the speed of the attached devices. You can stack up to four switches, giving your network a total of 96 Ethernet ports. Each switch stands only 1U high.

The switch features standards-based flow control for maximum performance and minimal packet loss during heavy network loading. And it complies with Fast IP, IGMP snooping, IEEE 802.1D (incorporating 802.1p prioritization), and IEEE 802.1Q standards-based VLAN.

Elastic port buffering allocates memory to port buffers, so the switch can optimize performance based on network traffic.

Dual queues help prioritize multimedia traffic. Trunking support lets you aggregate links into a single, high-speed connection to other switches or backbone networks. And automatic detection of full-/ half-duplex operation on all ports gives you the best performance without manual configuration.

Troubleshooting is easy, since the switch supports a Web-based monitoring and control system, embedded Remote Monitoring (RMON), and 3Com Transcend Network Supervisor. Configure a switching stack from any location.

The switch provides full support of resilient links and spanning tree, as well as optional redundant power supplies.

**Enjoy 10-/100-Mbps Ethernet switching and World-Wide Web access with the SuperStack 3 Switch.**

## Specifications

**Speed:** 10/100 Mbps, autosensing

**Switching Method:** Store and forward

**Management:** Embedded Web server, SNMP, Telnet, 3Com® Transcend®

**Connectors:** (24) RJ-45, (1) DB9 serial

**Power:** 90 to 240 VAC, 50/60 Hz

**Size:** 1.7"H x 17.3"W x 9.7"D (4.3 x 43.9 x 24.6 cm)

**Weight:** 11 lb. (5 kg)

## What the Package Includes

- 3Com SuperStack 3 Switch XM 3300
- 3Com Transcend® Network Supervisor software
- Rackmount ears
- Power cord
- Users' manual

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p. m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a

vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
