## SMART SERIAL CISCO CABLES

**Connect a Cisco router to the network via interface-detecting Smart Serial Cisco Cables.**

### Key Features

- ▶ **Compact 26-pin connector.**
- ▶ **Automatically detects RS-232, RS-449, RS-530, X.21, or V.35 connector types.**
- ▶ **Perfect for use with Cisco routers.**

The Smart Serial Cisco Cables from Black Box are ideal for use with Cisco routers.

The Cisco Smart Serial Interface features a space-saving 26-pin connector on the router that can automatically detect RS-232, RS-449, RS-530, X.21, or V.35 connectors, depending on the Smart Serial Cable that you select.

Cables are available with DTE or DCE V.35, RS-232, RS-449, X.21, or RS-530.

The cables auto-detect the connector type only, not whether the connected device is configured as DTE or DCE.
