ServSwitch Compact

Key Features

- ▶ High resolution 1280 x 1024 @ 100Hz/200MHz
- ▶ Hot-key function
- ▶ Cascadable system capability
- ▶ Microsoft IntelliMouse support
- ▶ Microsoft Optical mouse support
- ▶ PS/2 & serial mouse support
- ▶ Auto scan for easy monitoring
- ▶ Standard cables
- ▶ Rackmount kit for KVS194A available
- ▶ Win 3.x/95/98/ME/200/NT, DOS, red hat LINUX, FreeBSD unix, OS/2 Novell, SCO unix, etc. compatible

The ServSwitch Compact is ideal for those who want to control multiple computers with ease, to save equipment costs, to save time hopping from one computer to the other and to reclaim spaces. All you need are some standard cables to connect the ServSwitch Compact to your existing computer system and one PS/2 keyboard, PS/2 mouse and monitor to control them. If you have a large system, just cascade multiple ServSwitch Compact to match your need.

Once connected, the full-featured ServSwitch Compact takes care of the computers boot-up process as if the keyboard mouse and monitor were directly connected to each computer. Any combination of ATs, PS/2 and compatibles can mix together, the powerful ServSwitch Compact lets you switch and control all computers seamlessly regardless of the operation system. Switching computers is as easy as pressing front buttons or issuing simple hot-key. Managing multiple computers becomes a lot easier and reliable with the ServSwitch Compact, and this makes it a valuable tool for day-

to-day network administration.

Plug-and-play

You'll appreciate the fact that the ServSwitch Compact is easy to install and operate. No software installation is required and it is compatible with Windows 3.x/95/98/ME/2000/NT, LINUX, Novell, etc. These intelligent switches monitor all keyboards and mice activity at all times giving you the maximum flexibility. With the plug-and-play feature, you are free to change, swap or upgrade keyboard and mouse while the ServSwitch Compact is working.
