General Purpose Cellular Phone Clip

Operating Instructions

This cellular phone clip is designed to fit most phone models. Clean the surface of the phone and the button (it has an arrow on it) with an alcohol swab (provided). Let it dry. Attach the button to the phone using the high-strength double-sided tape provided. Make sure that the arrow on the button faces upward, toward the top of the phone.

Use the belt clip with the phone clip for safety and comfort in transportation. To attach the phone and phone clip to the belt clip, slide the phone clip's button into the groove in the belt clip. Slide it down until you hear it click into place. To remove the phone and phone clip from the belt clip, press the button on the bottom of the belt clip. The patented mechanism gently releases the phone.
