

Introduction

Ideal for use with your PC workstation (monitor, CPU, keyboard, and mouse), the PC/Keyboard Shelf slides out for keyboard access and stays hidden when not in use. It comes complete with a mouse pad tray that also stays hidden when not in use. The Shelf measures 19.62" (49.8 cm) wide, so it mounts to 19" or 23" racks and fits all standard keyboards.

What the Package Includes

Make sure your package includes the following items. If anything is missing or damaged, please call Black Box at 724-746-5500.

- (1) PC/Keyboard Shelf assembly
- (4) 12-24 black cross-recessed mounting screws
- (2) mounting ears

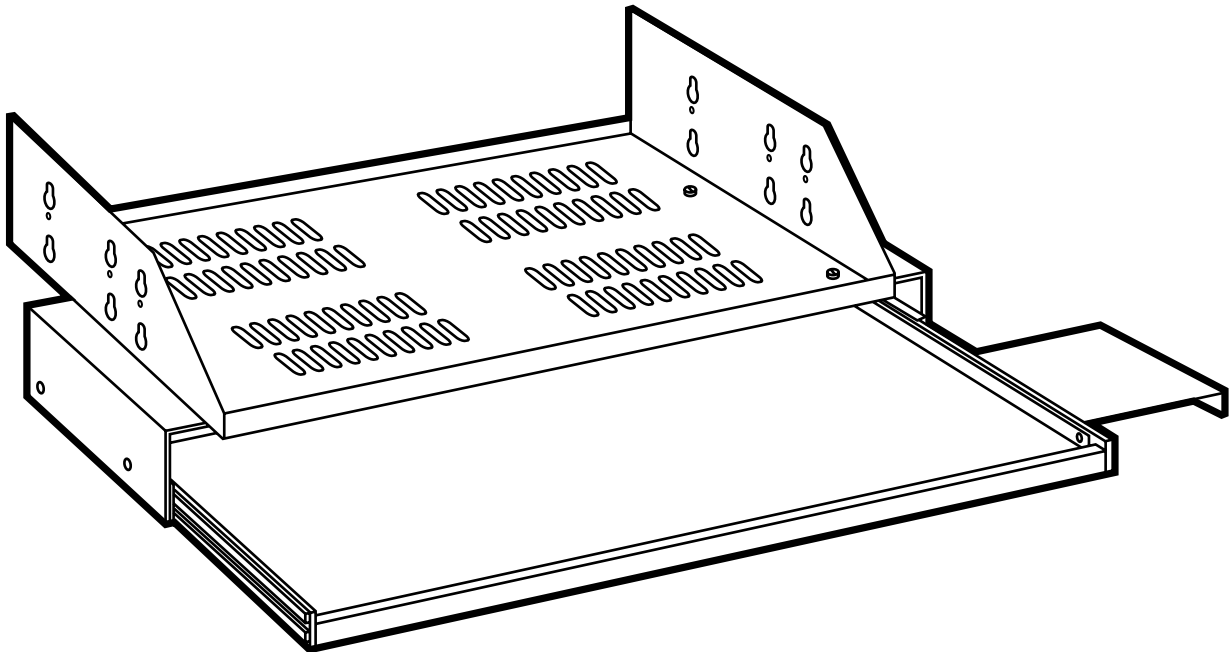

Installation

To mount the PC/Keyboard Shelf to the assembly:

1. Locate the position on the relay rack for mounting the shelf assembly.
2. Mount one ear to the relay rack using two of the 12-24 black mounting screws. Do not tighten the screws yet.
3. Mount the PC/Keyboard Shelf assembly to the installed mounting ear by putting the shoulder rivets on the mounting ears through the appropriate keyhole slots on the assembly. The assembly can hang on the mounting ear.
4. Place the second mounting ear in the appropriate keyhole slots on the opposite side of the PC/Keyboard Shelf assembly.
5. Line the mounting holes on the second mounting ears up with the appropriate tapped holes on the relay rack. Secure it with the last two 12-24 black screws.
6. Tighten all screws.

PC/Keyboard Shelf
